

POLICY

PRIVATELY OWNED VEHICLES

In recommending arrangements for pupil transportation to and from school-related activities, the principal, in conjunction with the activity advisor, shall consider the type of activity, the total number of pupils involved, and the availability of appropriate vehicles. Groups of pupils, too small in number to make economical use of Type I or Type II vehicles, may be transported in privately owned passenger vehicles driven by qualified school personnel, state employees and/or parents/guardians who are willing to provide transportation for district pupils to and from school-related activities away from their school of attendance.

Qualification shall include:

- A. A valid driver's license from New Jersey or another state;
- B. A private passenger vehicle of eight or fewer capacity, with a current New Jersey or other inspection sticker;
- C. Evidence of at least the statutorily required insurance coverage;
- D. District approval of activities involved; and
- E. Adequate supervision of pupils at the activity.
